FCC ANNOUNCES TENTATIVE AGENDA FOR DECEMBER 21st OPEN MEETING

Washington, D.C. -- Today, Federal Communications Commission Chairman Julius Genachowski announced that the following items will be on the tentative agenda for the next open meeting scheduled for Tuesday, December 21, 2010:

- **Open Internet Order:** An Order adopting basic rules of the road to preserve the open Internet as a platform for innovation, investment, competition, and free expression. These rules would protect consumers' and innovators' right to know basic information about broadband service, right to send and receive lawful Internet traffic, and right to a level playing field, while providing broadband Internet access providers with the flexibility to reasonably manage their networks.
- **Next-Generation 9-1-1 NOI:** A Notice of Inquiry seeking public input on how to transition the current, voice-only 9-1-1 system to broadband-enabled, next-generation 9-1-1. This transition, recommended in the National Broadband Plan, would revolutionize 9-1-1 service by enabling the public and 9-1-1 call centers to harness the life-saving potential of text, photo, and video in emergencies.

Topics selected for FCC open meeting agendas are posted on the Commission's website approximately three weeks prior to the Commission's next monthly meeting. The FCC will also issue a public notice of the "Commission Meeting Agenda" one week before the meeting and announce at that time the items that are scheduled for the agenda.

Commission meetings are open to the public, who can attend in person at the FCC headquarters (445 12th Street SW, Washington, D.C.), or watch the live stream at www.fcc.gov/live.
